The Science of Health!

Every Man his own Physician.

HOLLOWAY'S PILLS

—AND—

Holloway's Ointment.

Disorders of the Stomach, Liver and Bowels.

The stomach is the great center which influences the health or disease of the system—abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, etc. The bowels sympathize by costiveness, diarrhœa and Dysentery. The principal action of these Pills is on the stomach and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum

Are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antagonistic; its *modus operandi* is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions of the Skin,

Arising from a bad state of the blood, or chronic diseases, are eradicated and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints,

Whether in the young or old, married or single at the dawn of Womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation. They are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stuborn diseases is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases: Bunions, burns, chapped hands, chilblains, fistula, gout, lumbago, mercurial eruptions, piles, rheumatism, ringworm, salt-rheum, scalds, skin diseases, swelled glands, sore legs, sore breasts, sore heads, sore throats, sores of all kinds, sprains, stiff joints, tetter, ulcers, venereal sores and wounds of all kinds.

CAUTION.—See that the words "Holloway, New York and London," appear as a watermark on every leaf of the book of directions which enfolds each box or pot. No others are genuine. A handsome reward given for information leading to the detection of counterfeiters of the medicines and venders of the deceptive articles, knowing them to be such. Sold at the manufactory, No. 80 Maiden Lane, and by druggists and medicine dealers throughout the world. A great saving by taking the large sizes. Full instructions with every box or pot. f6-1y

Great Paris Exposition, 1867,

Being the highest honors and all the Gold Medals awarded to any Sewing Machine Company at this Exposition.

As a HOLIDAY Present, Nothing will be more appreciated THAN ONE OF these MACHINES.

America, England and France, now unite in this grand Proclamation:

Good news! good news the cable brings,
O'er all the wires it flies,
Wheeler & Wilson's sewing machine
Brings back the golden prize.

Our "Uncle Sam" first struck the note,
"John Bull" then caught the sound;
Now comes from France the echo back,
Wheeler & Wilson's crowned.

And now, no more the people doubt,
So long its stood the test—
The thing is fairly noised about
And they will buy the best.

☞ We can now supply those who wish to purchase 'STODDARD'S PATENT TUCK-MARKER,' one of the most useful attachments to the Machine yet invented; which, while sewing one tuck, makes the line of marks for the next.

The Crawford County Plan.

An Act relating to the Selection of Candidates for Office by Political Parties.

Sec. 1. It shall be lawful for the qualified citizens constituting any political party in this to adopt the following system of organization, viz:

Sec. 2. The acting Executive Committee of any such party, in any county, or in any city of this State, is hereby authorized, on or before the first day of July succeeding the passage of this act, to appoint from the qualified citizens of said party, one Judge and two Inspectors in each ward or township in said city or county, who shall conduct the primary or nominating elections of said party in the manner hereinafter directed.

Sec. 3. The Executive Committee before mentioned shall procure from the Clerk of county a certified copy of the list of citizens who voted at each election district in said county at the last previous general election, and shall transmit the same to one of the election officers appointed in each of said districts aforesaid, at least one week previous to said primary nominating election.

Sec. 4. Each of the Inspectors appointed as aforesaid, shall appoint one clerk, and each Judge, Inspector and Clerk aforesaid, before entering upon the duties of their offices respectively, shall take and subscribe the oath prescribed to be taken by the officers of general elections under the laws of this State.

Sec. 5. The qualified voters of said party shall meet in the several wards or townships of each of said counties and cities, at such place as shall be designated by said acting Executive Committee, on the — day of — next after the passage of this act, and then and there elect, by ballot, one member of the Executive Committee of the party in each of said counties and cities to represent each of said wards and townships, and they shall in the same manner designate and select the names of such candidates for the offices to be voted for at the next ensuing general election as they may desire to be nominated for the said offices.

Sec. 6. Every such nominating election shall be opened at 12 M. and closed at 6 P. M. of said day.

Sec. 7. Every Inspector or Judge appointed as aforesaid shall have power to administer oaths or affirmations to any and all persons claiming a right to vote at said primary or nominating election, and shall be subject to all such penalties for misdemeanors in office as are prescribed for the officers of general elections held under the laws of this State.

Sec. 8. No person shall be permitted to vote at such primary or nominating election who is not a qualified citizen under the laws of this State, and unless his name is found on the list of citizens who voted in said ward or township at the last preceeding election, furnished by the Executive Committee aforesaid; and unless, further, such person shall have voted at such general election for the candidates nominated by the party holding such primary election; and if the right of any person to vote is objected to for the reason that he is not a member of the party holding said primary election, it shall be the duty of the Inspectors to examine such person on oath or affirmation, and the fact that he voted for the nominees of said party at the previous general election shall be substantiated, in addition to his own oath or affirmation, by the testimony of at least one qualified citizen in good standing in said party. Provided, that recognized members of the party who were absent from the district at the last general election, and whose vote is not objected to, may vote, although his name is not found on the list of voters aforesaid; and provided further, that persons who are under the age of twenty-one years, but who will arrive at said age on or before the next ensuing election shall be entitled to vote upon making public declaration of their intention to vote, at the next general election, for the the candidates nominated by the party holding such primary election.

Sec. 9. When the polls shall be closed the tickets shall be counted in the same manner as is prescribed by law for the enumeration of tickets voted at the general elections.

Sec. 10. As soon as the votes given for any office are counted, public announcement shall be made by the Judge of the Election of the number of votes cast for each person voted for; and the officers of the election shall make out two certificates under their hands, setting forth the number of votes cast for the several persons voted for, and shall deliver one of said certificates to the acting member of the Executive Committee in said ward or township, and shall transmit the other of said certificates by mail to the Chairman of the Executive Committee then in office.

Sec. 11 After the election is finished, the tickets, lists of voters, tally papers, and forms of oath prescribed by the election officers, shall be placed in an envelope, which shall be bound with red tape and sealed by the election officers, and delivered to the member of the Executive Committee representing the district in which the said primary election has been held.

Sec. 12. On the following Tuesday after the election, the members of the acting Executive Committee representing the several wards or townships in any city or county shall then be sworn or affirmed as Return Judges; and shall proceed to add together the number of votes appearing by the certificates aforesaid to have been given for any person or persons in respect to any office, and after ascertaining the number of such votes, shall make out and sign returns, which shall be delivered by the Chairman of said Committee to the person who shall subsequently be elected Chairman of the newly elected Executive Committee. Provided, that in case of a tie vote given to any two or more persons for the same office, the said committee, acting as Return Judges, shall vote by ballot, and the person having the highest number of votes of said committee shall be declared nominated for said office.

Sec. 13. The newly elected members of the Executive Committee for each of said counties and cities shall assemble on the following ——, and shall organize by the selection, by ballot, of a Chairman and Secretary. They shall then open the returns delivered to the Chairman by the retiring Executive Committee, and shall cause publication of the nominations for the several offices to be made in the party papers of the city or county.

Sec, 14. The Executive Committee for each county and city, elected as aforesaid, shall, in every year hereafter, perform the duties hereinbefore prescribed to be done by the Executive Committee in office at the passage of this act.

SAN BERNARDINO.—Should immigration continue in the same ratio this year as last, it will not be long before California will be one of the most populous States in the Union. While the White Pine excitement may take away many of our enterprising citizens, causing a temporary suspension of certain industrial pursuits, yet the main props upon which rests the prosperity of the State—the agricultural interest—will not be affected. Productive lands, a healthy climate, and a market in which the farmer can realize a greater profit for the products of his labor than in any other part of the world, are inducements that are beginning and will continue to bring to her shores a class of people who will sustain these interests, and make the State what nature intended it—the great garden of the West. The southern counties are fast filling up with a young and thriving population, and in some of them, lands are now held at such prices that many of them have to return on account of their inability to buy. In Los Angeles county, which has perhaps a larger area of agricultural land than any other in the State, a farmer with limited means finds it difficult to secure even a homestead. To all who are in search of homes, we extend an invitation to visit this valley, and judge whether or not its rich soil, abundant timber and inexhaustible supply of water, together with the low price at which all these conveniences can be obtained, are sufficicient inducements for them to settle here.—[Guardian.

A TENNESSEE ORATOR.—Mullins, of Tennessee, is the newest style of orator at Washington Don Piatt describes him as something wonderful. He spoke last week on "Lo, the poor Indian," and never before was there such a volcanic eruption of tropes, figures, metaphors, poetry, statistical facts, and insane muddle of ideas. His voice is clear and piercing—his flow of words perfectly incomprehensible. No mill-race, full to overflowing from the ruptured dam, ever poured along such a torrent as this orator from Tennessee. Almost every member left his seat, and crowding about him, they laughed and applauded as he swung on, picturing the woes of the red man, and tumbling in the continent of America upon Asia, Africa, Arabia, and the Holy Land, with a passing glance at the starry heavens, the terrestrial globe, hell and the devil—in which last named he located rebels and copperheads, leaving them taking the oath of allegiance, amid shrieks of fiends and roars of laughter from the House. Imagine a man of medium size, thin, angular, grizzly as John Brown, some sixty years of age, swinging his arms like windmills, with face aflame, veins on his forehead swelled to whip-chords, and a voice pouring out this torrent of contradictory and impossible things, and you have my Mullins.

THE SWEDENBORGIAN DOCTRINE.—According to Swedenborg, there are three heavens, consisting of three orders of angels. The first is distinguished for love, the second for wisdom and the last for obedience. All angels have lived on earth, none created such. They are men and women in every respect; they marry and live in societies, in cities, and countries just as we do in this world. All in whom love to God and man is the ruling principle go to heaven at death; Between heaven and hell a perfect equilibrium is maintained. As there are three heavens so there are three hells, and every angelic society has an infernal antagonists. Hell, as a whole, is called the devil and Satan; there is no individual bearing this name. All in whom self-love is the ruling principle go to hell. There is no resurrection of the earthly body. Every one passes to his final lot at death, some make a short sojourn in an intermediate state, designated the world of spirits, where the good are cured of their superficial infirmities and intellectual mistakes, and the evil reject all their pretenses to good.

REPORTED FLIGHT OF DR. J. H. JOSSELYN. It is believed that Dr. J. H. Josselyn, who was convicted in the County Court a short time since of abortion and who was sentenced to the State Prison for the term of three years, escaped out of the State to-day on the Panama steamer. This morning, as the steamer was about to sail, Dr. Josselyn made his appearance at the foot of the gang plank, in company with an old man, and asked officers Johnson and Martin to allow him and the old man to pass. They did so, and although they watched closely for the doctor to return, only the old man was seen to come off. Josselyn had appealed his case to the Supreme Court, and was at large under bonds in the sum of $6,500, with Horace Hoog, J. Johnson, and Dr. B. F. Josselyn, as sureties.—[Bulletin, 9th.

A HUMOROUS young man was driving a horse which was in the habit of stopping at every house on the roadside; passing a country tavern, where were collected together some dozen countrymen, the animal as usual, ran opposite the door and then stopped, in spite of the young man, who applied the whip with all his might to drive the horse on; the men in the porch commenced a hearty laugh, and some inquired if he would sell that horse? "Yes," said the young man, "but I cannot recommend him, as he once belonged to a butcher, and stops whenever he hears any calves bleat." The crowd retired to the bar in silence.

A GIRL twelve years of age named Betty Wolf, residing with her uncle at Silveyville, committed suicide last Friday evening by taking a teaspoonful of strychnine. She had been accused some days previous of taking some buttons from one of her schoolmates, and it is supposed that distress of mind drove her to the rash deed. Medical assistance was called in, but too late to accomplish any good. She died in about two hours after taking the poison.—[Vallejo Chronicle.

A RASCALLY old bachelor says a man frequently admits that he was in the wrong, but a woman never—she was "only mistaken."

SOMETHING TO SET US THINKING.—Ninety years hence, not a single man or woman, now twenty years of age, will be alive. Ninety years! Alas! how many of the lively actors at present on the stage of life will make their exit long ere ninety years shall have rolled away! And could we be sure of ninety years, what are they? "A tale that is told;" a dream; an empty sound, that passeth on the wings of the wind away, and is forgotten. Years shorten as man advances in age. Like the degrees in longitude, man's life declines as he travels towards the frozen pole, until it dwindles to a point and vanishes forever. Is it possible that life is of so short duration? Will ninety years erase all the golden names over the doors in town and country, and substitute others in their stead? Will all the new, blooming beauties fade and disappear; all the pride and passion, the love, hope and joy, pass away in ninety years and be forgotten? "Ninety years," says Death; "do you think I shall wait ninety years? Behold, to-day and to-morrow, and every day, are mine. When ninety years are past, this generation will have mingled with the dust and be remembered not!"

SOME years ago, an old sign painter, who was very cross, very gruff, and a little deaf, was engaged to paint the Ten Commandments on some tablets in a church. He worked two days at it, and at the close of the second day the pastor of the church came in to see how the work progressed. The old man stood by, smoking a short pipe, as the reverend gentleman ran his eye over the tablets.

"Eh!" said the pastor, as his familiar eye detected something wrong in the wording of the holy precepts: "Why, you careless old person, you have left some of the commandments entirely out—don't you see?"

"No—no such a thing," said the old man, putting on his spectacles; "no, nothing left out—where?"

"Why, there," persisted the pastor; "here, look at the Bible—you have left out some of the commandments."

"Well, what if I have?" said obstinacy, "what if I have? There's a confounded sight more there now than you'll keep!"

Another artist was employed there next day.

WOMEN FATTED FOR MARRIAGE.—In Tunis a girl, if she is betrothed, is cooped up in a small room, shackles of gold and silver are placed upon her ankles and wrists, as a piece of dress. If she is to be married to a man who has discharged, dispatched, or lost a former wife, the shackles which the former wife wore are put on the bride's limbs and she is fed until they are filled up to the proper thickness.

The food used for this custom, worthy of the barbarians, is called drough, which is of an extraordinary fattening quality; and also famous for rendering the milk of the nurse rich and abundant. With this food and their natural dish, cascasia, the bride is literally crammed, and many actually die under the spoon. In this country, cotton and India rubber, externally applied, are made to answer a similar purpose.

A GOOD STORY.—The Dayton Ledger tells the following: A good story is told of one of our Railroad Conductors, who runs a night train on one of the roads entering this city. The joke is all the better for being true, as our informant avers. A few Sundays ago he concluded to gratify his religious propensities by attending divine service at one of our city churches. He soon found himself in a comfortable pew. Unfortunately the habit of sleeping in the day time was hard to overcome, and our worthy friend fell in a doze. Being aroused by the rising of the congregation to receive the benediction, and imagining himself on his train, "Hamilton! ten minutes for refreshments." The effect upon the congregation may be imagined but not described.

SHOCKING.—The Virginia Enterprise of the 9th says: The dead miners yesterday taken up from the mines in Gold Hill, presented a most shocking appearance. All the features were swollen and distorted, and it seemed as though all the blood in the bodies of the victims had been forced into their heads. So distorted were the faces of most of the dead, that their wives and relatives were not allowed to see them.

A YOUNG Boston commercial agent was recently tried and condemned by a mock court of salesmen in St. Louis, for selling goods without a license. He took everything in earnest, all legal forms were observed, and the defence conducted with serious vigor. He had even been arrested by mock officers in uniform. He was finally sentenced to "stand treat," much to his astonishment.

WHERE WASHINGTON WAS MARRIED.—The old church known as St. Peter's, in vicinity of the White House, Washington, in which General Washington was married, was badly dismantled during the war. The windows are all broken out, the chancel broken down, the old baptismal fount in fragments, and the doors without fastenings. An effort is now being made to repair it, and put it in condition for use.

CHEER up; keep a brave heart. It matters not whether the sun shines on you or not, if you only have sunshine within. Do not pout and complain of "nasty weather," but see the sunny side of the subject, and laugh the storm or misfortune in the face. Should trouble overtake you, look it out of countenance—it will soon disappear.

TRANSFORMATION OF NAMES.—A French gentleman recently remarked to a literary lady that of all American poets none had given greater delight to his countrymen than Edgarapo. This is almost as bad a transformation as that which occurs in a late number of a St. Petersburg paper, in which the Russian journalist speaks of "that brilliant American author, Oliver Vendel Golmes."

JUDGE R——, when first admitted to the bar, was a very blundering speaker. On one occasion, when he was trying a case of replevin, involving the right of property in a lot of hogs he said: "Gentlemen of the jury, there were just 24 hogs in that drove; just 24, gentlemen, exactly twice as many as there are in that jury box."

PICTURES.—If the status of public morals is to be indicated by some things that are supposed to wield an influence in moulding the tastes and inclinations of the people, surely there is no reason to boast of superior civilization and high-toned refinement in our own country. If the sickening details of crime which fill columns of the press in every part of the land and the reckless, immoral character of a multitude of pictorials, magazines and other disreputable publications daily distributed at every post office and news depot in the United States forms any part of a criterion in such a decision, then it must be admitted that morality and virtue are rapidly retrograding and vice of all kinds, in the same ratio, is fearfully increasing, not only in the lower stations of life, but especially in the fashionable circles of society. To whatever causes these evil consequences may be assigned, they are plainly attributable in part to the corrupt influences of the war through which the nation has but recently passed, and from the effects of which it will not soon recover. A writer treating of the decay of public morals says truly:

The war called into active exercise all the baser passions of the human heart. The war developed hatred, malice, revenge, murder, covetousness, licentiousness, debauchery. It caused men to trample on all law, human and divine. It introduced a spirit of anarchy and lawlessness, and materially unsettled the very foundations of society—infusing its baneful spirit into all the various ramifications of the social structure of community. Were it necessary we could go into detail and point to innumerable instances, public and private, going to show that public and private virtue are on the down-hill road in the United States; but it would be a work of supererogation. The fact is patent to all; and it should cause every well-wisher of his country and his kind to do what he can to stay the tide of corruption that is now rolling over the land, threatening ultimately to engulf all in one common ruin.

GRANT'S APPOINTMENTS.—In the list of recent appointments to office by President Grant, as reported by telegraph, we notice the following: E. B. Bassett, of Pennsylvania, (colored) Minister to Hayti; J. R. Clay of Louisiana, (colored) Minister to Liberia; Silas A. Hudson, of Iowa, (colored) Minister to Guatemala; Charles Wilder, (colored) Postmaster at Columbia, South Carolina; R. B. Pinchback, (colored) Collector of Revenué for the city of New Orleans. There are hundreds of the white supporters of Grant's Administration who would no doubt be well pleased to secure appointments for themselves to the same fat offices. Yet, in view of the fact that the party in power have declared in favor of negro suffrage, the disappointed white office-seekers have no right to complain.

RADICAL MORALITY.—As a specimen of Radical ideas of courtesy and morality, the following dispatch was recently sent across the wires to the San Francisco Herald:

Senator Ross, of Kansas, called on the President to-day, and demanded an appointment for a favorite. The President declined to make the appointment. Senator Ross was insolent, and finally told the President to "Go to hell." The Senator was ejected from the White House.

If Senator Ross were a Democrat what a howl would be sent up about "infamous Democratic outrages" at the Capital. But he happens to be an ardent member of the "trooly loil" party, therefore the matter will be hushed up.

NO EXCURSION.—It has been decided, so says the telegraph, that the much talked of excursion over the Pacific Railroad on the occasion of its completion will be indefinitely postponed. The reason given is that the officers of the road will not be prepared to accommodate a very large party at that time. They say it will take all Summer to stock the road properly and put it in perfect condition, and that the legitimate business of the road for the season will be as great as they can possibly attend to. Free passes, backward and forward, will be given to all Congressmen.

CHANGE OF NAME.—The New York Democrat says that when a man gets to be a loyal United States Senator, a common, honest name is not good enough for him. Henry Wilson, when he was a cobbler at Utica, was known as Jeremiah Colbath, and now it transpires that Senator Conness, of California, who is of Irish birth, dropped the parental name of Conner when he was imported. Sailing under ficticious names is a fine Radical pastime.

NEW VOLUME.—The Calumet, the organ of the "Improved Order of Red Men" for the Pacific Coast, has adopted a new and beautiful "head" and launched out prosperously on its mission in a new volume. It will hereafter be issued once a week.

AT A DISCOUNT.—In the theaters of Paris dramatic entertainments have become so disreputable that no man can, with propriety, take his wife or daughter to witness the plays.

OVERLAND MAIL.—It is said that there are still over ten tons of letter mail awaiting transportation from points on the overland mail route, where it has been delayed.

THE CRAWFORD SYSTEM.—We call attention to a synopsis of the Crawford plan of making nominations, published on the first page of the DEMOCRAT to-day.

MANUFACTURY.—The Colusa Sun advocates the establishment at Colusa of a woolen mill. The location would be a favorable one.

THANKS.—Senator Casserly, Hon. James A. Johnson and Hon. Erastus Wells have our thanks for valuable public documents.

THE NOMINATIONS.—The following list of nominations sent to the Senate for confirmation, appears in the San Francisco Times, April 14th:

H. J. Tilden is appointed Assessor of the First District, California. He was formerly County Judge of Calaveras county, and the late Chairman of the Union Republican State Central Committee. He is a practicing lawyer in this city, and a man of sterling integrity and ability. He will make a good officer.

J. O. Rawlins, the new Collector of Internal Revenue in San Francisco, is a brother of General Rawlins, Secretary of War.

Frank M. Pixley is to be United States District Attorney for this district. He is so well known by our citizens that any sketch of his history would be unnecessary.

H. G. Rollins, Register of the Land Office in San Francisco, represented the county of Nevada in the last State Legislature.

J. G. McCallum, Register of the Land Office at Sacramento, is a practicing lawyer in that city. He is quite widely known throughout the State, having been President of the Union State Convention and having rendered good service to the Republican party on the stump.

Hart Fellows, Receiver of Public Moneys at Sacramento, is from Placer county and is editor of the Stars and Stripes.

E. W. Roberts, Register of the Land Office at Marysville, was State Senator from Nevada county. He is an earnest, energetic and capable man.

F. Colgrove is to be Indian Agent at Hoopa Valley.

A. Mathews, of Martinez, appointed consul to Tangiers, was born in Tangiers. He has for a long time been a citizens of Contra Costa and a prominent Republican, and bears a good reputation.

Thomas B. Van Buren, Consul-General to Florence, was formerly Senator from San Joaquin county, and was a devoted friend of Senator Broderick. He was a nephew of Martin Van Buren.

W. L. Farrand, Consul-General to Valparaiso, is a citizen of California.

David Turner, Consul-General to La Paz, is also of our State.

The appointment of William A. Howard of Michigan as Minister to China, will be read with regret, as displacing Ross Browne, a Californian, in whom all our citizens justly feel a pride.

DISSATISFACTION.—Much dissatisfaction has been expressed by the press in reference to Grant's action in the removal of Wm. Neely Johnson, Register of the Land Office at Sacramento. If the President made the removal with a full knowledge of all the facts in the case, he certainly has not shown in this instance that he is possessed of all the magnanimity claimed for him by his friends. The Reporter, commenting on the removal, says:

Johnson, as is well known to the people of this State, has been blind for a number of years, but, although entirely blind, he has with the aid of a clerk, performed the duties of the Register's office with surprising accuracy so far as all decisions rendered by him, in connection with the Receiver, (who has also been displaced), were concerned. In fact, all the duties of the office were so discharged by him as to give entire satisfaction to all parties having business before him. This act excites general surprise and indignation, for the reason that it cannot be justified, and for the additional reason that but a few weeks have elapsed since President Grant declared publicly that he would not remove men from office who were known to have faithfully discharged their public duties. But now the telegraph reports that he has actually removed a blind man from office, who is known to have acted honestly and faithfully, and against whom, we are confident, no word of complaint has been or could be truthfully made.

TENURE OF OFFICE LAW.—It is known to all readers of the public journals that a contest has been in progress for some time past with reference to the Tenue of Office Law. The parties to this contest were the President and the House of Representatives on the one side, and the Senate on the other. The former contended stoutly for the repeal of the law, simple and absolute, the latter insisted on retaining it, in substance at least, as it was. After several attempts, a compromise has finally been agreed on. A new Tenure of Office Law has passed both Houses and, we presume, received the signature of the President. Just how much, or in what respects, it differs from the old one, we shall not undertake to say. Judge Davis, of the Supreme Court, and Attorney General Hoar are reported as saying that it prevents the President from removing any officer without the consent of the Senate. If this be a correct interpretation of it we cannot see that the President will be any better off under it than he would have been under the old one.—[Yreka Union.

OLD ISSUES AND NEW.—The Marysville Appeal says: "If old issues are buried, how is the Democratic party to be kept upon the top of the ground?" The question is simple and easily answered. By favoring a rigid economy in financial matters, and opposing the reckless, extravagant expenditures of the present dominant party. By favoring equal rights among citizens in taxation and representation, a restoration to all their rights and privileges of all the States of the Union, and opposing the selfish, illiberal, fanatical course of the Radical party in oppressing one portion of the community to the advantage of another portion. By farroring a return to honesty in official stations, and opposing the corruptions that now prevail in almost every department of the Government. These are all new issues and have nothing to do with secession, rebellion, the war, freedom of negroes, or any of the dead issues that are being constantly harped upon by such Radical sheets as the Appeal.—[Capital Reporter.

GEN. BUTLER ON MILITARY COMMISSIONS.—The Boston Traveler of February 16th has the following: A person in conversation with Gen. Butler recently, brought to his attention the removal of the body of Mrs. Surratt. "She was an innocent woman," the General said, unhesitatingly. In reply to a remark that that case showed the truth of the saying, "Military commissions are organized to convict," he said, "Yes, I sent persons to military commissions when I intended them to be convicted; when I wished them acquitted I did it myself."

REWARD.—Governor Haight has offered a reward of five hundred dollars for the arrest and delivery into the custody of the Sheriff of Sacramento county of Harvey Brown, who shot and killed Samuel Jewell on the 24th of February last.

GRACEFUL SWEEP.—a lady going through the streets with a long skirt.

RAILROADS THE MEASURE OF CIVILIZATION. In the report of the majority of the Senate Committee on the Pacific Railroad, Feb. 19th, the following paragraphs occur:

The highways of nations are the measure of their civilization. Without roads there cannot be society, government, commerce, or intelligence. In exact proportion to the abundance and excellence of highways are the exchange of services between men, the communication of thought, the economy of labor, the augmentation of wealth, the growth of comfort, the development and consolidation of the civilized state.

Transportation upon the backs of animals is an incident of barbarism. The mule trains of South America are the machinery of commerce among people whose exchanges are few, whose wants are almost purely animal, and who are enslaved by superstition and ignorance. The future histories of the civilization of Spain and Portugal will have to chronicle the substitution of turnpikes for mule-tracks, and the displacement of pack animals, first by wagons and afterwards by locomotives. Even enlightened England had her "dark ages" in respect to roads. They endured with infinite waste and hindrance from the evacuation of Britain by the Romans in 448 down to near the year 1700. The necessity of getting at the Scotch with infantry and cavalry marched frequently from London, to suppress the chronic rebellions of the Highlanders, forced the government to construct turnpikes. For over 1200 years the sole means of internal transportation the English possessed were strings of pack-horses picking their way through lanes of mud. British civilization, and the development of British industry and commerce, and the wonderful accumulation of wealth in Great Britain, have kept pace, first, with the building of turnpikes; second, with the construction of canals and slackwater navigation as better highways than earth roads; and third, with the founding of the marvellous system of railways which now covers England as with a net work.

A YOUNG HERO.—As master J. Harry Cutter, a youth aged about fourteen, son of James H. Cutter, Esq., Harbor Commissioner, was riding on horseback Saturday, on the margin of a large pond in the vicinity of Fillmore and Greenwich streets, and sitting his horse carelessly, the animal probably frightened by some object, wheeled suddenly, dashed into the water and threw its rider where it was upwards of twenty feet deep. Luckily the accident was witnessed by a boy about the same age as Master Cutter, named James Fitzpatrick, who resided some hundred yards distant and ran at once to his aid. Stripping as he ran, he speedily arrived at the pond and plunged in to the rescue. On reaching young Cutter, some thirty feet from the edge of the water, the drowning lad seized him by the neck with both hands, and clutched him so firmly that the marks of his fingers are still left on his preserver. Young Fitzpatrick, with rare presence of mind for one of his age, seeing their perilous situation promptly struck Cutter a smart blow on the stomach, which caused him to release his hold, and then seizing him by the wrist bore him safely to the land. By the assistance of persons who had gathered around, young Cutter was soon restored to animation and conveyed to his home, but little the worse for the accident. Fitzpatrick donned his garments, and mounting the horse returned it to its owner. When the father of the lad who had been in such jeopardy, expressed his great gratitude to the savior of his son, the youthful hero said, "O, that's nothing," and treated the whole matter as a commonplace affair. He declined all rewards offered him, and said all he wanted was "a piece of bread and butter." This is stated to be the third person he has saved from a watery grave. His parents may well be proud of a boy of such mettle.—[Examiner, April 12th.

BIRTHDAY OF JEFFERSON.—Tuesday last was the anniversary of the birth-day of Thomas Jefferson. The event was celebrated in San Francisco in a becoming manner by the Jeffersonian Society. The Examiner, referring to the occasion, says:

If Jefferson could arise from the dead to-day, and having in his mind's glance the events of the past eight years, he would be more than shocked at the crushing truth of this over-true indictment. But the past is beyond recall. It is ours to grapple with the present and take care of the future. If we would save the government which Jefferson did so much to give us—if we would perpetuate free institutions upon this continent—if we would vindicate the capacity of the people for self-government—if we would see peace and prosperity restored to the land—if we would have the laboring man stand great in the consciousness of unenslaved power—if we would see economy and responsibility in the administration of national concerns—if we would see these things, and much more dear to the eye of intelligent patriotism, we must bring back the government to the principles enunciated by Jefferson.

A CHICAGO paper prints a statement to the effect that a half-witted boy has confessed to having murdered Hon. Murray McConnell, of Illinois. The boy says he had a dispute with Mr. McConnell about $11, and becoming enraged, struck him on the head with a hammer. The boy is left-handed, and it is asserted that the blows which proved fatal must have been struck by a left handed person. Mr. Robinson, who is under arrest charged with the murder, maintains a calm and confident demeanor, and feels assured that he will be able to establish his innocence.

INSANE.—A man calling himself Emanuel Gushart, who said he was from Woodland, was examined before Judge Spalding on Wednesday last, on a charge of insanity, and committed to the Asylum at Stockton. His examination afforded another instance of the curious workings of the human mind when the balance wheel of reason is removed. He imagined that he had been "chloroformed," as he expressed it, and his liver and heart taken from him. On many subjects he appeared perfectly sane.—[Colusa Sun, April 10th.

THE NAME.—Everybody knows how the Republicans of this State became to be designated the "Union party."—[Marysville Appeal.

Yes, and everybody knows how that party proves itself unworthy of the name.

CROQUET.—The game of croquet is becoming quite popular in Nevada City. A young ladies' croquet club has been organized in that place.

THE TWO ENDS OF THE ROAD.—If the Pacific Railroad bill has been rightly construed, and Ogden is really to be the common terminus, the Central Pacific will own and control 866 miles of railroad from San Francisco, via. Stockton and Sacramento, eastward; while the Union Pacific will own and control 985 miles from Omaha to Ogden, westward. The difference in the length of the two roads will be 119 miles in favor of the Union Company; but the Central will have the important commercial port of San Francisco as a terminus, and California will always be the most fertile in the resources which contribute to railroad business of all the States on the entire route of the continental road.—[Bulletin.

Summons.

IN the District Court of the Sixth Judicial District, of the State of California, in and for the county of Yolo. The People of the State of California to HENRY M. JONES greeting:

You are hereby summoned to answer the complaint of JANE C. JONES, in said Court filed against you, within ten days, (exclusive of the day of service,) after the service on you of this summons, if served within this county; if served out of this county, but within this Judicial District, within twenty days; but if served on you without said District, then in forty days from such service, exclusive of the day of service, in an action commenced on the 18th day of March, 1869, in said Court.

Said action is brought to obtain a decree of said Court dissolving the bonds of matrimony heretofore, and now, existing between Plaintiff and Defendant. And you are hereby notified, that if you fail to answer the complaint as directed, plaintiff will apply to the Court for the relief therein prayed for.

Given under my hand and seal of the District court of the 6th Judicial District of the State of California, in and for the county of Yolo, this 18th day of March, in the year of our Lord one thousand eight hundred and sixty-nine. E. BYNUM, Clerk.

County Official Paper.

TOWN AND COUNTY MATTERS.

CAPAY VALLEY.—A correspondent of the DEMOCRAT writing under date of April 13th, thus does up matters in the pleasant locality of Capay Valley: "The clerk of the weather has favored us with some as pleasant days as we could ask. A gentle shower about a week ago refreshed vegetation very much, and a similar one at present would be thankfully received. Grain is looking well, but that which was sowed late needs rain. The farmers of this locality are beginning to understand what kind of cultivation is necessary to produce the best crops. A few years of ordinary seasons, and the intelligent farmers will improve by experiment, until the Pacific slope will out-rival any grain-growing section in the world. We have lost a good citizen in the death of Mr. Hagerman; he had been in feeble health for some time, and expired on the 11th inst. On the 10th there was a meeting at J. A. Lang's of the settlers on the unsurveyed lands, at which steps were taken to have a speedy survey made. The settlers have been shamefully mistreated in regard to their lands; it has been seven or eight months since many of them deposited the money for the survey, and still not a line has been run; a man does not know whether he is on his own or his neighbor's premises, hence disputes and contentions are frequent. Politics are at a low ebb, but I expect the tide will soon begin to rise. There will doubtless be plenty of men before the Convention who will be anxious to serve their country in the different offices. We are willing to trust to the wisdom of our delegates to select candidates for us, but the people of this section beg leave to suggest and earnestly recommend James Veirs, of Capay Valley, for the office of Supervisor. He is a gentleman of education, experience, fine business qualifications, and every way worthy the confidence of the people. They have never had a Supervisor from this portion of the county; they have interests that have been neglected from year to year, because the Supervisors knew nothing of them. The people of this valley ask, for the first time, for a voice at the council board, and their neighbors heartily support them. Quite an amusing affair occurred here a few days since. A one-horse peddler who "sells goods so sheap as never vas," passed through the village, plying his vocation, and was asked by the Constable if he had a license; to which impertinent question Jacob did not condescend to reply. On being pushed to the wall, however, he was compelled to admit that he lacked the one thing needful. The officer then gave him an invitation to visit the magistrate, which he firmly declined, whereupon the officer determined to take him *nolen volens*, and selected a deputy to assist him. Now came the tug of war; the peddler was stubborn and the officer resolute, and the former refused to dismount. The officer seized the horse by the bridle while the deputy was in the rear using his boot as a kind of propeller. At last the smothered wrath of our hero burst forth. Forbearance ceased to be a virtue; he *sailed off* and "sailed in" to the rear guard of his captors in true style. No harm was done, however, and on being brought before Justice Perkins he was fined $20 and costs. 'Peace reigns in Warsaw.'

GUILIELMUS."

AN ACCIDENT—NOT SERIOUS.—On Saturday last a horseman, somewhat "fatigued," rode his steed, a fine looking animal, into Buckeye and bantered the town for a race. No one feeling disposed to accept the proposition, he concluded to display the mettle of his horse in a single dash of a quarter against time and without appointing judges or referees, but in a confident spirit which prompted him to act as his own "bottle-holder," he started at the scratch, and vigorously applying whip and spur, went dashing through the town at a rate that startled the inhabitants. Before he reached the outcome he managed to run into a buggy and was thrown violently to the ground, where he laid for some time apparently lifeless. On coming to he gazed around in a bewildered manner and innocently inquired where he was. "You are in Buckeye," said a sympathizing by-stander. "You are badly hurt; we have sent for the doctor and you must pay the bill." "Go to thunder with your doctor," said the wounded man, rising to his feet. "I'm not hurt, and even if I was killed I'd never send for a bloody doctor in this country." A by-stander assisted him to re-mount and he rode away to avoid meeting the medicine man.

MAY DAY.—In accordance with time-honored custom the usual May day festivities will be observed in our midst. This annual holiday will be welcomed with pleasure by the young, and its happy and holy influences will be treasured up for many a day. Few more appropriate places could anywhere be found than the beautiful groves in the vicinity of town. We learn that the teachers and pupils of the Christian and Methodist Sunday Schools intend uniting in the preparation of a grand pic-nic on the occasion. This will be an agreeable arrangement and much more appropriate than to have separate pleasure grounds selected for the different schools, as the custom has heretofore prevailed. Let the day be made joyous by a harmonious union of all who desire to participate, without reference to a difference of opinion on any subject. We are informed that Charles Coil, with his usual hospitality, has invited the May-day pleasure seekers to spend the day in a grove near his residence. The place is a charming one and just the right distance from town.

COUNTY COURT—APRIL TERM.—Trial Jury drawn. People vs. M. Choynski—Ball and Coffroth for plaintiffs, J. H. Hardy and James Johnson for defendant—Jury rendered verdict of assault with deadly weapon with intent to do bodily injury; sentence, $400 fine or two hundred days in county jail. People vs. F. S. Freeman—obstructing highway; Court ordered a trial *de novo*, and cause continued for the term. People vs. Chas. Buford, burglary—Defendant found guilty; sentence, one year in State prison. People vs. Elijah Lamb—Jury disagreed and *nolle prosequi* entered. Adam Carey vs. W. J. Frierson—Judgment for plaintiff for the sum of $24 65 and costs of suit, taxed at $80 30.

PROBATE.—The following orders were made in Probate Court this week: Estate of G. A. Fabricius, deceased—Order for distribution of estate. Estate of Henry Rhoads, deceased—Decree granted allowing annual account and partial distribution. Estate of Samuel McDonnell, deceased—Order granting sale of personal property. Estate of Henry Wunderli, deceased—Sale of personal property confirmed. Estate of Isaac Brownell, deceased—Decree of final discharge of administrator. Estate of Colbert St. Louis, deceased—Notice pertaining to distribution of residue of property ordered published in DEMOCRAT.

WEATHER.—During a portion of the week a regular seige of north wind prevailed. On Thursday night, however, it ceased blowing from that quarter, and yesterday morning a gentle breeze from the south brought with it a most welcome shower of rain. Coming just at a time when most needed, it will prove of incalculable value to farmers who have fields of late sown grain. There seems to be no reason now to fear a light harvest; on the contrary, there's a good prospect for well-filled granaries throughout the county.

STAGES CROWDED.—For some time past the stages to and from Woodland have been crowded to their fullest capacity. Quite a number of strangers are seen on our streets daily. Some of them are looking out for business locations and residences. Woodland seems to be attracting considerable attention from abroad.

RECOVERING.—John D. Stephens, who was injured by the running away of his team on Saturday last, is again on the street and appears to be recovering rapidly from the effects of the mishap.

BUCKEYE.—We were agreeably surprised on a recent visit to Buckeye to witness the improved and business-like appearance of the place. The people of the county need not be astonished to witness the rapid growth of a flourishing village at that point. Men of energy and business tact, who have toiled for years in improving and beautifying their farms, are beginning to reap the rewards of their labor in the treasures that fill their purses from the rich resources of the soil. A very large number of acres, never before in cultivation, are this season covered with a luxuriant growth of wheat and barley, and the wealth and future prospects of the people are sufficient to justify the building up of a center of trade in their midst. Already there are several business houses well patronized by those who cannot spare the time to do their trading at more distant points. The enterprising firm of Harling, Welch & Co. has become deservedly popular throughout that portion of the county. Their stock of goods, in quality and variety, can scarcely be surpassed anywhere in Yolo, and with long experience in the business they can make arrangements in the purchase and transportation of their goods and wares on such terms as enable them to sell at very low rates. The establishment has been principally instrumental in attracting attention and business to the town, and is destined to yield a rich harvest to the gentlemanly members of the firm. Benj. Ely, an old resident and land owner in that vicinity, has recently laid out quite a number of town lots, upon which several new buildings are to be erected. A good school is at present in session, and every facility for the proper education of the youth of Buckeye is supported by the citizens in a commendable manner.

PEOPLE VS. M. CHOYNSKI.—This case has attracted considerable attention in the County Court. A trial was had on Monday and Tuesday last—verdict, "assault with deadly weapon with intent to do bodily injury." The defendant was sentenced on Wednesday morning to pay a fine of four hundred dollars, or be imprisoned in the county jail for two hundred days or until such fine be paid. He is now in jail cancelling his fine at the rate of two dollars for each day's imprisonment.

SPECIAL NOTICES.

A CANARD.—"Pure liquors for medical purposes sold here." This sentence is conspicuously exhibited in the store windows and on the sign-boards of many spirit merchants, druggists, and general dealers. The information it imparts would be valuable if true, but unfortunately it is not. All the liquors of trade, foreign and domestic, are more or less adulterated. If a stimulant is needed in the hospital or the sick room, prudence dictates the selection of an article absolutely free from every deleterious element. There is only one such article in the market—"Drake's Plantation Bitters." The spirits of which they are in part composed is not an ordinary commercial staple, but a wholesome, rich, thoroughly rectified liquor, distilled from the sugar-cane for the proprietors of the Bitters by their own employees, on their own plantations in St. Thomas, and not to be obtained at any price from any other source.

PAIN KILLER, the great family medicine of the age, taken internally, cures Dysentery, Cholera, Diarrhœa, Cramp, and Pain in the Stomach, Bowel Complaints, Painters' Colic, Liver Complaint, Dyspepsia and Indigestion, Sore Throat, Sudden Colds, Coughs, &c., &c. Used externally, it cures Boils, Felons, Cuts, Bruises, Burns, Scalds, Old Sores, Sprains, Toothache, Pain in the Face, Neuralgia, Rheumatism, Frosted Feet, &c., &c., &c. a3-1m.

ELECTRO SILICON.—This curious and valuable substance is confidently claimed to be the BEST ARTICLE ever discovered for cleaning and polishing Gold, Silver and Plated Ware, and all smooth metallic surfaces, of whatever description, including kitchen utensils of tin, copper, brass, steel, etc.

TO HEADS OF FAMILIES.—Are your little ones subject to croup? If so, don't fail to use NEWELL'S PULMONARY SYRUP. A few doses given in time MAY SAVE THE LIFE OF A DARLING CHILD. Do not fail to have it on hand, if you would be safe and free from anxiety.

"IN TIME OF PEACE PREPARE FOR WAR."—So get a bottle of DR. E. COOPER'S UNIVERSAL MAGNETIC BALM, an unequalled preparation for Dysentery, Diarrhœa and Cramp. The instantaneous relief for Burns, Bruises and Sprains.

JAMAICA GINGER!

This valuable preparation, containing in a highly concentrated form all the properties of Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic, it will be found invaluable to all persons recovering from debility, whether produced by fever, or otherwise; for while it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by riding in a railroad car, or by sea-sickness, or other causes.

It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

"There Shall be Light."

It is not always night,
Although the gloom be deep;
Clouds do not always veil the light,
Nor shadows round us sweep.

The darkness shall give way
Like mist before the sun,
And the clear flowing beam of day
Break through the shadows dun.

After the night comes day,
So joy doth follow fear;
Behind the cloud, the sun's bright ray;
In doubt, hope draweth near.

Though sorrow claims the night,
Yet in the morning, joy;
Then grief shall hasten to its flight,
And hope bear no alloy.

WHEN Grant's Cabinet was announced, everybody exclaimed, "who is Borie?" The answer was at length satisfactorily given when the public were told that he is the man who was instrumental in raising the funds to purchase Grant's splendid house in Philadelphia. That piece of information was entirely satisfactory as to who Borie is.

A GENTLEMAN after having paid his addresses to a young lady for some time, "popped the question." The lady, in a frightened manner, said: "You scare me, sir!" The gentleman did not wish to frighten the lady, and consequently remained quiet for some time, when she exclaimed, "Scare me again!"

HERE is a beautiful paragraph which we find in one of our exchanges: If there is a man who can eat his bread in peace with God and man, it is that man who has brought that bread out of the earth, or won it by his honest industry. It is cankered by no fraud; its is wet by no tears; it is stained by no blood.

A SOLDIER on trial for habitual drunkenness was addressed by the magistrate; "Prisoner, you have heard the charge of habitual drunkenness; what have you to say in defense?" "Nothing, please your honor, but habitual thirst."

"ETHEOLINE."
Prepared by
READ & MAGEE,
Druggists and Apothecaries,
MAIN STREET, WOODLAND.
The ETHEOLINE removes all kinds of Grease Spots, etc., from silk, ribbons and cloth; it also cleans gloves in a few moments without effecting the color; and for cleaning wool or silk ts invaluable. It is not offensive, like other preparations of the kind; on the contrary, it is an elegant perfume.
N. B. We have secured the services of BEN. HASTINGS, an experienced chemist, who will attend to the compounding of prescriptions.

G. J. OVERSHINER,
CARRIAGE AND WAGON MANUFACTURER,
Main street, (opposite Gray & Freeman's,)
WOODLAND.
I would call the attention of the public to this well-known shop, where I manufacture to order and keep constantly on hand for sale
Carriages,
Buggies,
Sulkies,
CONCORD-STYLE THOROUGHBRACE
—AND—
LUMBER WAGONS,
—FROM THE—
BEST EASTERN MATERIAL,
Selected by myself!
All work manufactured at my shop is under my own immediate supervision, and up to the requirements of the times, of the latest style, and the most
APPROVED PATTERNS AND FINISH!
I employ no "foreman," for 30 years' experience in the trade—10 years in the Eastern States, 20 years on the Pacific coast, (including 9 years superintendence of the "Pioneer Carriage Shop," Sacramento,) justifies me in assuming that position. Delegating to none the supervision of my work, I am enabled to
Guarantee Satisfaction!
My LARGE and SPACIOUS SHOPS enable me to store large quantities of material, and my
SEASONING FACILITIES,
(the only perfect seasoning apparatus on the coast) enable me to defy competition in quality of seasoned work. For verification of above, one has only to examine my facilities in this line, and compare them with those in other shops. I do not pursue the course adopted by many; on the contrary, I season stock before working, and do not put up green stock in wheels, leaving them to season afterwards. I have and keep on hand a large stock of
OAK and HICKORY SPOKES,
of all sizes and the finest material the market affords. Also a large variety of
Elm and Locust Hubs.
Having given the Oak Hub a fair trial, I have become convinced that they are *unfit* for first-class work. Parties who may favor me with their patronage may be assured that
No green oak hubs will be found in my work!
In this connection I would call particular attention to my NEW STYLE LOCUST HUB, turned from my pattern, and imported expressly for this trade and
Found only at my Shop!
Also made to order all kinds of
FARMING IMPLEMENTS!
Plows,
Harrows, &c
I have now on hand Harrows of all sizes, with STEEL TEETH, superior to the imported article. In short, I am prepared to fill all orders, from a Wheelbarrow to a Hornet's Nest.
The PAINTING and TRIMMING DEPARTMENT
is equal to the best, and particular attention is paid to repairing and trimming old work.
BLACKSMITHING,
In all its branches, is connected with the wood-work, and both are under my supervision.
I have on hand, for sale,
Plow-beams and Handles,
Neckyokes,
Singletrees,
Stretchers,
Clevises,
Fifth-chains,
Lap-Rings,
Harrow-Teeth,
Etc., Etc.
All kinds of Plow and Wagon repairing done with neatness and dispatch. Determined to adhere to my long-established rule of manufacturing only the
Best Work from the Best Stock,
and having served my time at the two branches of carriage-work, (wood and iron) enables me to guarantee satisfaction in all cases, and to know, as foreman of my own shop, when work is
WELL DONE.
To those who have heretofore dealt at other shops, and consequently are unacquainted with my work, I would say GIVE ME A CALL and examine my stock and work. Believing that the surest test of the value of my work can be had in the verdict of those who use it, I respectfully refer the public to
The following named Gentlemen
who have and now are using Wagons and Buggies of my manufacture: E. Giddings, J. Laugenour, J. Aldrich, Mr. High, H. Rhoades, Mr. Taylor, J. Jones, L. B. Ruggles, Gray & Freeman, J. Garoutte, Fleishman & Kaufman, Ed. Moses, S. & M. Hyman, George Scott, Mr. Ludden, Mr. Olds, Mr. Lusk, Mr. Huribut, R. Fritz, J. Lane, Wm. Davidson, and a host of others whose names can be given if required.
☞ Thankful for past patronage, I respectfully solicit a continuance of the favor.

HELMBOLD'S BUCHU.
The only Known Remedy
—FOR—
Diabetes, Irritation of the Neck of the Bladder, Inflamation of the Kidneys, Catarrh of the Bladder, &c., &c., &c.
For these diseases, it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms. Are you troubled with that disgusting pain in the small of the back and through the hips? A teaspoonful a day of Helmbold's Buchu will relieve you.
Physicians and Others
PLEASE NOTICE.
I make no secret of ingredients. Helmbold's Extract Buchu is composed of Buchu, Cubebs and Juniper Berries, selected with care, prepared in vacuo and according to the rules of
Pharmacy and Chemistry.
These ingredients are known as the most valuable Diuretics afforded. A Diuretic is that which acts upon the Kidneys. Helmbold's Extract Buchu acts gently. It is pleasant in taste and odor, free from all injurious properties, and immediate in its action. For the satisfaction of all, see Medical Properties contained in Dispensatory of the United States, of which the following is a correct copy:
"BUCHU. Its odor is strong, diffusive and somewhat aromatic, its taste bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, chronic catarrh of the Bladder, morbid irritation of the Bladder and Uretha, diseases of the Prostrate, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in Dyspepsia, chronic Rheumatism cutaneous affections and Dropsy."
For further information see Professor Dewees valuable works on the Practice of Physic. See remarks made by the celebrated Dr. Physic, of Philadelphia. See any and all standard works on Medicine.
Dr. Keyser is a physician of over thirty years experience, and a graduate of the Jefferson Medical college and of the University of Medicine and Surgery of Philadelphia:
Mr. H. T. HELMBOLD—Dear Sir: In regard to the question asked me as to my opinion about Buchu, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases where such medicate agent would be indicated. You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys; and the reputation it has acquired, in my judgment, is warranted by the facts. I have seen and used, as before stated, every form of Buchu—the powdered leaves, the simple decoction, tincture fluid extracts; and I am not cognizant of any preparation of that plant at all equal to yours. Eighteen years' experience ought, I think, to give me the right to judge of its merits, and without prejudice or partiality I give yours precedence over all others. I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu, or any other proprietory compound of whatever name. Respectfully yours, etc.,
GEO. H. KEYSER, M. D., 140 Wood st.
Pittsburg, Pa., August 11, 1865.
ASK FOR
HELMBOLD'S FLUID EXTRACT BUCHU.
FROM THE LARGEST MANUFACTURING CHEMIST IN THE WORLD.
I am acquainted with H. T. Helmbold; he occupies the drug store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise. WM. WEIGHTMAN, (firm of Powers & Weightman), Manufacturing chemists, Ninth and Brown streets, Phila.
The proprietor has been induced to make this statement from the fact that his remedies, although advertised, are genuine preparations, and knowing that the intelligent refrain from using anything pertaining to Quackery, or the Patent Medicine order—most of which are prepared by self-styled doctors, who are too ignorant to read a physicians' simplest prescription, much less competent to prepare Pharmaceutical preparations. These parties resort to various means of effecting sales, such as copying parts of advertisements of popular remedies and finishing with certificates. The science of medicine stands simple, pure and majestic, having fact for its basis, induction for its pillar, truth alone for its capital.
A Word of Caution.
Health is most important; and the afflicted should not use an advertised medicine, or any remedy, unless its contents or ingredients are known to others besides the manufacturer, or until they are satisfied of the qualifications of the party so offering.
